## PROFILE

I will be finishing my MSc Computer Science studies in September 2023 and I am looking for a full-time software developer position, or a position where I could apply my skills and develop new ones. My favourite languages are Java, I know Python, I have some university experience with other languages and I can obviously learn any new language. I have no professional software development experience. I live in Berlin, Germany, but a relocation is possible.

## EDUCATION

Technical University of Berlin, Berlin, Germany, 2021 - 2023
Current MSc Student in Computer Science
Expected Graduation – September 2023
